

Learn to Earn Education for Life & Work

VISION

A leading institution in the region which promotes quality teaching and passionate learning in an ever changing global environment.

MISSION

To respond to the needs of the community through the delivery of an array of high quality programmes and services in an environment which promotes innovation, open access and lifelong learning; and to empower students through the acquisition of skills, knowledge and values to contribute meaningfully to the development of Anguilla, the region and the world.

Technical Sixth Form

BTEC Level 2

TECHNICAL & VOCATIONAL SIXTH FORM (6th Tech) provides an opportunity for eligible students recently completing Secondary School to pursue training applicable to the Hospitality or Construction industries.

The BTEC Extended Certificates in Construction and Hospitality are British accredited qualifications.

Technical & Vocational Sixth Form programmes are sponsored by the Government of Anguilla. 6th Tech students may also opt to take other courses such as CXC CSEC or other qualifications but these are not sponsored under the Technical & Vocational Sixth Form Programme.

ENTRY REQUIREMENTS

1. Completion of ALHCS or other secondary institution.
2. Five (5) subjects including CCSLC, CSEC, local or technical subjects.
3. CCSLC English and Mathematics SHOULD be at Master or Competent levels.
4. Construction applicants should have a subject in carpentry/joinery or woodworking, electrical, or construction/building trades.
5. Hospitality applicants should have SMART or Hotel Management or/and Culinary essentials.

Mature students with work experience will also be considered for the BTEC Extended Certificate programmes.

All applicants for the BTEC Level 2 Extended Certificates must take a placement test.
