## ACC MEDIDA TECHNOLOGY & DESIGN ASSOCIATE DEGREE

Do you have a passion for media, technology and design? Do you want to pursue a career in the creative industries? Do you want to study at a leading institution in the region that offers accessible and high-quality education?

If you answered yes to any of these questions, then the Media, Technology and Design Associate Degree at Anguilla Community College is the perfect choice for you!

This two-year degree program will provide you with a solid foundation in the theory and practice of media, technology and design, as well as the skills and knowledge to succeed in your chosen field.

### Programme Description

Media Technology and Design is an interdisciplinary course that explores the intersection of technology, design, and media production. This course provides students with the theoretical knowledge and practical skills necessary to create innovative and compelling media content in today's digital landscape.

Through a combination of lectures, hands-on workshops, and projects, students will learn about the latest trends and technologies shaping the field of media production.

They will develop proficiency in industry-standard software tools and gain practical experience in areas such as graphic design, video production, web development, and interactive media.

You will have the opportunity to choose from four exciting pathways:

- **Graphic Design:** Learn how to create visual communication solutions using typography, images, colors, and layouts. Develop your artistic and technical abilities to produce logos, posters, flyers, brochures, magazines, websites, and more.
- **Animations:** Learn how to create engaging and expressive animations using 2D and 3D software. Develop your storytelling and artistic skills to produce cartoons, motion graphics, video games, films, and more.
- **Interactive Media:** Learn how to design and develop interactive media products using various tools and platforms. Develop your creative and technical skills to produce websites, apps, games, simulations, virtual reality, and more.
- **Screen Production:** Learn how to produce and edit video and audio content for various media platforms. Develop your production and communication skills to produce documentaries, commercials, news, podcasts, and more.

You can choose to specialize in one or two pathways, depending on your interests and career goals.

## Admission Eligibility Criteria

1. CSEC passes in one or all of the following subjects:  
Information Technology  
English Literature  
Principles of Business  
Visual Arts

2. The College admission criteria for mature students are as follows:

#### Age Requirement:

The individual must be at least 21 years of age.

**Demonstrated Potential for Academic Success:** The applicant's previous school performance, private study, and/or recent work record and experiences should indicate strong potential for academic success.

**Relevant Work Experience:** The applicant should possess relevant work experience, which could contribute to their success in the chosen program of study.

**Absence from Formal Education:** The applicant should not have pursued secondary school, college, or university-level studies within the last five years. This criterion emphasizes the consideration of individuals who may have been out of formal education for some time but are now seeking to pursue further studies.

**Additional Requirements:** Mature students must also fulfill any other specific requirements stipulated by the Academic Unit offering the program of study they are interested in. These criteria aim to provide mature students with opportunities for higher education based on their potential, experiences, and readiness to undertake academic challenges, even if they have been out of formal education for a period of time.

#### Duration of the Program

2 Year program.

#### Option one -

- Five General Courses ( 15 credits)
- Two Electives (6 Credits)
- Eleven Majors (33 Credits)
